This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

COOK'S DAGUERREAN ROOMS.

At this Gallery can be seen some of those BEAUTIFUL DAGUERREOTYPES, which have justly secured to him the

HIGHEST PREMIUMS

AWARDED AT THE TWO LAST FAIRS OF THE

South-Carolina Institute for 1850-51.

Every style, every attractive peculiarity the art is capable of making, is here adopted, and one style peculiar to himself, which has not been approached by any artist in the country: it is the flesh tone of coloring, which softens the harsher shadows, and tends to make the sitter look younger and handsomer than in the usual style.

For notices of his skill, by good and artistic judges, he refers you to the following, from the press:

"We would invite especial attention to the Daguerreotype Rooms of Geo. S. Cook, in King, opposite Hasell street, an artist who adds the charm of taste and skilful painting to that of the Daguerreotype, and produces at once the perfect similitude and the elegant picture."—Charleston Courier.

"Cook is indeed an artist; not one made by mere dint of mechanical instruction—but one of fine genius, tasteful conception, and scientific powers of execution. His pictures are indeed admirable in every quality. The tone and finish of his likenesses, the peculiar appropriateness of the position selected, his just idea of the happy moment of expression in the sitter, make them generally the very finest specimens of the art."—Charleston Evening News.

CLEVELAND & SKRINE'S NE PLUS ULTRA YEAST POWDERS.

The many and various preparations now before the public, bearing the name of Yeast Powders, render it necessary that we should apprise them that these Powders are the result of long and careful chemical analysis, and a certain test of their superiority by their use. We challenge the world to produce an article equal for the purpose they are recommended; and we now place them before the public, with full confidence that they will supersede all other preparations for making Bread, Cakes, Pastry, &c.

Particular attention is called to the extensive assortment of beautiful and choice articles for the Toilet Table, the Dressing Room and Boudoir, consisting of Perfumery of every kind; Scented Soaps of all varieties; Oils and preparations for the Hair; Powders and preparations for rendering the skin soft, smooth and blooming; Dentifrices for the Teeth; Brushes of all kinds; Combs, and every article necessary for the nse of the lady or gentleman, or families, whether traveling or at home.

DR. ALLEN'S
VEGETABLE COMPOUND

for the cure of

DYSPEPSIA, LIVER COMPLAINT, NERVOUS DEBILITY, BILIOUS AFFECTIONS, &c.

This medicine is offered to the public under the assurance that there is no article in existence having stronger claims to their consideration. Being compounded by a regular Graduate of Jefferson College, and a practising Physician of Twenty Years' Standing in Philadelphia, his long experience has confirmed him in the opinion that a compounded medicine was required to prevent and remedy the debilitation produced by residing in low, miasmatic climate, and to counteract the prostrating influences of the many nervous disorders with which the human family are afflicted.

Dr. Allen is a well known physician, and has used the above medicine in his practice for twelve years with the most astonishing effect, having tested its qualities in above

TEN THOUSAND CASES.

The effect of this Compound is such as not to interrupt either business or pleasure; requiring only the common restraint of moderation in diet. It is conveyed by the circulatiag fluids, and corrects their tendencies to all diseases which originate in Diseased Liver, Depraved Appetite, or Predisposition to Affection of the Lungs.

Thousands are lingering upon the brink of the grave, suffering under diseases in some form, whom this medicine would certainly restore to health and society. Its safety and innocence have been fully tested, so that it may be administered to the most helpless and tender infant.

The above medicine has for a long time been used with great success in warding off that Debility and Prostration of Strength which is produced from living in a Southern Climate, or in a neighborhood where Miasmata arises from wet and low lands, Bilous and Intermittent Fevers, also Liver Complaint, which is so often mistaken for Cousumption of the Lungs, though if the patient watches himself closely, he may discover the difference. Dr. G. W. Allen is a well known physician of the city of Philadelphia, and has used the above medicice in his practice for the last Twelve Years, the result of which has fully proved that it will CURE DYSPEPSIA IN ITS WORST FORMS, and he now offers it to the public under this conviction, and trusts it will meet with that patronage which it so justly deserves.

When the above Medicine is used as directed, a certain cure will be effected in a short time.

Prepared only by the Proprietors, DR. GEORGE W. ALLEN, Philadelphia, and J. A. & W. L. CLEVELAND, No. 207 King Street, Charleston, S. C., and sold by the principal Druggists in the U. States.

Having suffered for years with Dyspepsia, and been relieved by the above medicine, I take pleasure in recommending it to my friends.

New York, July 1st, 1851. SOLON ROBINSON.
